Get the training you need for the job you want.

Skilled KC Technical Institute is a new way to get the skills and certifications you need for a high-paying career with lots of growth potential.

---

**THE SITUATION**

They need employees. All you need is training.

Right now, Kansas City has thousands of job openings in industries like advanced manufacturing, software development and biotechnology. But without the proper training, you can’t apply for these jobs — at least not yet. That’s about to change.

---

**THE OPPORTUNITY**

Born out of the Ewing Marion Kauffman Foundation, Skilled KC provides training that is informed by industry experts, guiding the learning with job placements in mind. With training programs that last just five to nine months, you can quickly transition between training and employment with little to no debt.

---

**THE TRAINING**

Courses begin in 2020.

Skilled KC is currently accepting applications for enrollment in the following categories:

**Software Development**
Advance in a career that includes creating and testing software, analyzing data, and writing computer code.

**Biotechnology**
Grow your career in biology and technology with a discipline to work in a lab and enter data for animal or human health companies.

**Advanced Manufacturing**
Improve the way the world makes products with training for industries like aerospace, automotive and more.

---

**ENROLL TODAY**

Grow your skills. Grow your salary. Grow your career.

Learn how Skilled KC can improve your career and start enrollment at SkilledKC.org.

*Skilled KC Technical Institute admits students of any race, color, and national or ethnic origin.*
