

Get in. Get out. Get hired.

---

## Grow your Skills. Grow your Career.

At Skilled KC, we believe that every person should have access to an education that opens career opportunities. That's why we offer a different kind of curriculum that focuses on the skills that companies need.

By working directly with in-demand industries, we provide workers with the skills, training and experience necessary to succeed in just five to six months with little to no debt.

With thousands of well-paid jobs available in Kansas City right now, what are you waiting for?

### THE SITUATION

**1,000's**  
**OF WELL PAID JOBS**  
are available in  
Kansas City.

### THE PROBLEM

**44**  
**PERCENT**  
of the workforce do not  
have the credentials

### THE OPPORTUNITY

**Get hired**  
**FOR THE JOB YOU WANT**  
in as little as five months.

---

## We teach what companies need.

We design each of our programs in partnership with in-demand industries. They are hyper-focused on opportunities right here in Kansas City and accomplished in quick bursts that take months, not years. Enroll to learn skills that not only make you more employable right now — but make you more successful in the long run.

Learn more about each of our programs at [SkilledKC.org](https://www.skilledkc.org) and take control of your career today.

# Biotechnology

## Make an impact.

In the Kansas City area, over 1,000 biotech jobs are available from companies in pharmaceutical, agriculture, diagnostic testing, and manufacturing industries. That gives you over 1,000 opportunities to find the job for you. Better get started.

Training through our Biotechnology program gives you career options including agricultural and food science technician, lab assistant and clinical lab technician.

### INDUSTRY PARTNERS INCLUDE:

- **BIONEXUS**
- **MOBIO**
- **BIOKANSAS**
- **CEVA**
- **HERITAGE BIOLOGICS**
- **QUEST**
- **CLINICAL REFERENCE LAB**

### BIOTECHNOLOGY CERTIFICATE

5 MONTH PROGRAM • STARTING WAGE: \$17/HOUR - \$21/HOUR

#### BIOTECHNOLOGY LAB TECH I

Provides entry level skills in biotech principles and lab techniques, emphasizing safety, accuracy, and lab protocol. Students explore career pathways and bioethical implications.

#### BIOTECHNOLOGY LAB TECH II

Expands on Biotechnology Lab Tech I to include cell culture techniques & genetic technology. Students gain further experience in the lab conducting aseptic processing and identification techniques.

## Forget student loan debt.

Students in the first year of Skilled KC study tuition free, their certificates underwritten by the Kauffman Foundation.
